Google Trends Summary for Surat (IN-GJ)

For the layout strategist, here's an analysis of recent Google Trends data for Surat:

- Product Keyword Trends:
 - Rising Interest: iPhone 15 shows a clear upward trend.
 - Declining Interest: Samsung Galaxy S24 , gaming laptop , and noise cancelling headphones are all showing declining interest, despite being top trending overall.
- Regional Differences (Gujarat vs. National):
 - No Significant Differences: For the analyzed keywords, interest trends and relative search volumes in Gujarat (IN-GJ) are consistent with the national (IN) baseline. There are no unique regional spikes or dips observed in this dataset.
- Recommended Hero Products for Power Wall & Experience Zones:
 - Power Wall: iPhone 15 (due to rising interest and high overall search volume).
 - Experience Zones: gaming laptop and noise cancelling headphones (despite declining trends, they remain top trending products, indicating high current interest for hands-on experience).
 - Prominent Display: Samsung Galaxy S24 should still be prominently displayed as a top trending item, but its declining trend suggests less emphasis on new launches and more on competitive pricing or feature comparison.
- Seasonal or Event-Driven Spikes:
 - The provided data does not contain specific information regarding seasonal or event-driven spikes (e.g., festive sales, product launch dates). Further analysis would be required to identify these patterns.
